

Remarks

Claims 1 and 38-70 remain pending in the Application. Claim 62 has been amended to correct typographical errors. Entry of the amendment is respectfully requested. No new matter has been added. Reconsideration is respectfully requested.

Claim Status

Claims 1 and 38-70 have been allowed in accordance with Ex parte Quayle practice.

The Amendment to the Drawings

Applicants respectfully submit that the application includes at least one process claim. Thus, it is USPTO practice that a drawing is not necessary or required. Note MPEP § 608.02 and MPEP § 601.01(f). Nevertheless, the drawings have been amended to advance prosecution.

Figure 4 has been amended to further show a color-coded push button (1030) and a corresponding matching color-coded storage location (918), as requested by the Office. As can be seen from Figures 4 and 5, the eighteen push buttons (940) correspond to the eighteen storage locations (918) of the lower shelf (904). The buttons (940) have labels. Accordingly, a label of a corresponding type is in the storage location to which the button corresponds. For reasons of clarity, Figure 4 shows only the (three) labeled storage locations that correspond to the fourth through sixth buttons in Figure 5. A marked-up copy of Figure 4 showing the changes circled in red has also been provided.

Entry of the drawing amendment is respectfully requested. Support for the amendment can be found in the Specification (e.g., pages 16 and 29). Applicants respectfully request that the drawing requirement be withdrawn and the application passed to issue.

Respectfully submitted,
